

YOUTH PRODUCTION HORSE PROGRAM CONTRACT

In order for the production program to meet its purposes, several rules must be followed as listed below:

1. The animal used must be either raised by the youth or purchased by January 1 of its yearling year. Leasing is not allowed.
2. Stallions may be shown only as weanlings. Production classes recognize January 1 as the universal birthday for all horses (i.e., a foal born anytime this year is a yearling the following January 1).
3. The youth must have passed their thirteenth birthday and not passed their nineteenth birthday as of January 1, of the current year.
4. The production horse will be used only by the youth. Parents, trainers, or any other people may not have trained or shown the animal after January 1 of its yearling year. The animal may be shown in open or breed shows, but only by the youth having it as a project. Youth may get advice from others in training and showing the animal, but no one else will actually ride, drive, and/or handle the horse at halter to train or show it.
5. The youth will follow the rules for The Production Division as written in the current Uniform Rules for 4-H Horse Shows.
6. This contract must be signed by the youth taking the project, their parent or guardian, and the local Extension Agent or Vocational Agriculture Instructor. The contract will be kept on file in the local Extension office or local FFA office, and needs to be on file by the designated date required for youth to identify project animals in their respective organization.
